<b>Sense of God's call</b>	I am excited to begin to engage with the wider church in my newer role as ordained clergy. I hope to bring a unique perspective of the margins into the larger conversations of the church including btw, nuerodiverse, under 30, trans identity, as well as experience of pastoral leadership beyond the traditional model (full time pastor to one congregation- I am currently bivocational). I am also interested in learning from others and also exporting the innovative and creative ministry that goes on in our synod so that we might continue to be God's church in new ways now and into the future.
